TRANSFORM

For over two decades Tremron has transformed the southern landscape with unrivaled hardscape products. It has been our continued dedication to innovative design and quality that has been the cornerstone to our success.

ENTRYWAYS

ALLURING. GRAND. ELEGANT.

Create a grande statement when you install an entryway using Tremron pavers. From alluring walkway entrances in shopping plazas to inviting and opulent drives leading into residential communities, Tremron's innovative pavers and wall blocks create an elegantly unified landscape.

Inspired by nature, but created by Tremron, our hardscape products offer an everlasting elegance that creates a sense of luxury and ease.

POOL DECKS

INVITING. RELAXED. LUXURIOUS.

Elevate the appearance of your pool deck project with pavers from Tremron. Full size pavers are the perfect choice for new pool construction; while thin remodel pavers are designed to overlay existing concrete for pool deck renovations.

When you choose Tremron pavers for your commercial pool construction needs you not only create a certain sense of luxury, but you also get the assurance of an enduring product that will maintain its beauty with each passing year.

SHELLSTONE WHITE

STREETSCAPES

CHARACTER. PERFORMANCE. TRANSFORMING.

Evoke a sense of classic European elegance and add a touch of timelessness when you install any one of our roadway pavers. With several color options to choose from, we make it easy to find the perfect complement to your project.

Tremron pavers have become the preferred choice amongst landscape and architectural professionals in the Southeast, capturing the beauty of natural stone, yet offering exceptional durability, ease and quality.

PAVERS 

4X8 ADA BRICK

Designed to meet accessibility guidelines of the American with Disabilities Act for detectable warnings, the 4x8 ADA Brick Pavers feature a truncated dome surface texture. The distinctive dome patterning are easily detectable by canes or foot so that people with vision impairments detect the transition from pedestrian area to curb cuts, loading docks and passenger waiting areas on elevated platforms. Additionally, the 4x8 ADA Brick Paver is available in two bold colors that create a contrasting color combination for installations.

TUSCANY

Tuscany is a unique split-faced, antiqued paver mimicking granite cobbles with an exposed aggregate and black granite-like finish. Tuscany offers panache and elegance and is often the paver of choice for high-end entryways, driveways and streetscapes.

* Tuscany pavers are sold by the full cube only.

PORCELAIN

SLABS

PORCELAIN

The monolithic pieces of 20mm thick porcelain pavers have been designed for those looking for the perfect balance between technical functionality and aesthetic appeal. With superior durability, porcelain tiles are ideal for a variety of both residential and commercial applications. The non-slip surface finish provides a safe surface for patios, pool decks, pathways, and urban pedestrian malls.

* Not suitable for vehicular applications.

4X8 PERMEABLE

The 4x8 Permeable Paver has the appearance of a traditional paver, but with oversized joints to allow for water to infiltrate through the sub base releasing into the ground below. This reduces runoff and helps filter the rain water as it is reintroduced back into the ground water supply. Produced in a 3 1/8" thickness, it can be used in both residential and heavy vehicular applications, and is compliant with the Americans with Disabilities Act.

4X8 PERMEABLE

AQUA PAVER

With their beautiful unique shape, versatile design and superior permeability, Aqua Pavers are the ideal solution for eco-friendly hardscape design with optimum aesthetic appeal. Additionally, Aqua Pavers help protect the environment from dangerous pollutants in storm water runoff by allowing for the readmission of water into the ground naturally, recharging the aquifer.

AQUA PAVER

SF RIMA

SF Rima permeable pavers will reduce or eliminate storm water runoff, which decreases flooding and relieves sewer systems. With a 3 1/8" thick profile, SF Rima provides a sturdy surface for vehicular traffic, making it perfect for both residential and commercial uses. With the unique spacer design, SF Rima can be installed nub to block, or nub to nub for increased water drainage and turf growth.

SF RIMA

TURF BLOCK

Providing a permanent solution to soil erosion problems, Turf Block can be used in a wide variety of applications, from fire routes and parking areas to residential applications such as driveways and patios. Manufactured 3 1/8" thick, Turf Block provides a sturdy pavement for vehicular traffic that is perfect for both residential and commercial uses.
